

THE ART OF GROUP CONVERSATION

WE'VE GONE VIRTUAL!

Over the last year, we've held **5** Group Conversations over Zoom! In an attempt to adjust to our virtually-driven world, this allowed us to reach communities both nationally and internationally.

With the shown success of Group Conversation over Zoom, we plan to continue these endeavors alongside our in-person Group Conversations. We're excited to expand our reach.

WHAT WE DO MAKES A DIFFERENCE

...AND WE WANT TO MAKE A DIFFERENCE, WITH YOU!

Our mission is to help group members move beyond an "us vs them," mindset and experience their common humanity."

Group Conversation is an effective and versatile tool for helping a group of people to get better acquainted in a relaxed and accepting atmosphere. This process brings people together in order to discover their connections, experience mutual understanding, and build trust. It can be used as an icebreaker or team building activity, or as preparation for an important group collaboration.

Volunteer Opportunities for YOU!

- Social Media / Marketing
- Dialogue Facilitator
- Advisory Council Member

International Events AGC has been a part of

MAY 2023

WHAT DO PEOPLE SAY ABOUT US?

"I felt so many versions of shared experience with each person, which made me want to continue a conversation with that person individually."

"It is so important for collaboration that the people feel like they have things in common and have a sense of trust. I think the connecting and trust-building of group conversation dialogues lay the perfect foundation."
